ADVERTISE IN THE DEMOCRAT

Buying a Book.

The principle of choice should in general follow the taste or need of the friend for whom you are selecting a book. Yet it is also well now and then to open a new channel of interest by giving a volume outside of your friend's habitual line. We are often thankful to a friend who has drawn us out of our mental sheep tracks. There are a few writers that stand as permanent figures in the modern literary world—writers who have given out seminal ideas that seed and beautify the field of thought. Chief among these men are Shakespeare, Carlyle, Ruskin, Emerson and Victor Hugo. Until a library possesses at least the best writings of these five men it is sadly deficient. You are doing kingly service when you make these men known to any thoughtful mind.—Edwin Markham in Success.

Met His Match.

Rev. Matthew Wilkes, a celebrated London preacher, was caught in a shower in the famous Billingsgate market, where the profanity of the women who sell fish there is proverbial. As he stopped under a shed among them he felt called upon to at least give his testimony against their wickedness.

"Don't you think," said he, speaking with the greatest deliberation and solemnity, "I shall appear as a swift witness against you in the day of judgment?"

"I presume so," said one, "for the biggest rogue always turns state's evidence."

Wood at \$8 a Pound.

"French walnut is the finest wood we have," said the cabinetmaker. "It comes from Persia, but it is prepared in France. I have seen French walnut worth \$8 a pound, and it is a common thing to pay \$2 a pound for it. Of course it is used principally for veneering. Only millionaires could have chairs and tables of solid French walnut. Mahogany, wonderful as it is, rarely fetches such high prices. From \$2 to \$3 is a very good price per pound for this wood. Ebony, if it is a particularly large piece, so that it will cut well, will often bring \$5 a pound in the wood market."

Fitting Both Ends.

Press Agent—That ingenue is as green as they make 'em. What shall I say about her? Manager—Give 'em a song and dance about her girlish freshness and her pure young art. Press Agent—And what shall I say about Miss Passet's "Camille"? You know she's just completed a century run in the part. Manager—Oh, throw in some verbal pyrotechnics about the splendid maturity of her ripe genius.—Baltimore American.

An Unfamiliar Locality.

"Where was he struck by the automobile?" asked the coroner. "At the junction of the dorsal and cervical vertebrae," answered the surgeon. "Will you please point that out on the map?" asked the coroner, indicating one that hung on the wall.—Chicago Tribune.

—Mr. S. L. Bowen, of Wayne, W. Ca., writes: "I was a sufferer from Kidney disease, so that at times I could not get out of bed, and when I did, I could not stand straight. I took Foley's Kidney Cure. One dollar bottle and part of the second cured me entirely." Foley's Kidney Cure works wonders where others are total failures. City Pharmacy. dw*

GOOD RESOLUTION.

Hon. W. R. Dorman Introduces Important Resolution.

The following resolution has been introduced by Representative Dorman:

"Whereas, the Legislature of 1905, passed a concurrent resolution, requesting the Attorney General to compile, and have printed in pamphlet form all acts relating to public roads and duties of county commissioners; and,

"Whereas, the said resolution requires the Secretary of State to sell the said pamphlets for one dollar per copy; and,

"Whereas, said laws as compiled should be distributed to the county commissioners and clerks of the circuit court in the same manner that the General Statutes of the State of Florida and session laws are now distributed; therefore,

"Be it resolved, by the Legislature of the State of Florida: ,

"That the Secretary of State is hereby authorized and directed to furnish one copy of the pamphlet, containing the acts relating to public roads and duties of county commissioners, to the clerk of the circuit court and each member of the board of county commissioners of the several counties in this State free of charge, in the same manner that the General Statutes of the State of

Doing Business Again

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by Barclay & Groover, druggists. Price, 50c. dw*

FORCE OF WATER.

The Great Power That is Exerted by a Six Inch Stream.

The effect of the hydraulic motor, which is now used for the purpose of removing masses of earth, well nigh passes belief. A stream of water issuing from a pipe six inches in diameter, with a fall behind it of 375 feet, will carry away a solid rock weighing a ton or more to a distance of fifty or a hundred feet. The velocity of the stream is terrific, and the column of water projected is so solid that if a crowbar or other heavy object be thrust against it the impinging object will be hurled a considerable distance. By this stream of water a man would be instantly killed if he came in contact with it even at a distance of a couple of hundred feet. At 200 feet from the nozzle a six inch stream, with a 375 foot fall, projected momentarily against the trunk of a tree will in a second denude it of the heaviest bark as cleanly as if it had been cut with an ax. Whenever such a stream is turned against a bank it cuts and burrows it in every direction, hollowing out great caves and causing tons of earth to melt and fall and be washed away in the sluices.

The Eye of a Child.

Who can explain or fathom the wonderful instinct of the child? Lying in the arms of its nurse, in its carriage or elsewhere, its large, round, wondering eyes roam over a sea of faces till suddenly its features break into a sweet smile, a baby laugh dances in its eyes, perhaps the tiny hands are extended, and the little body gives a bound as though it would throw itself through space. What has happened? It has recognized a friend, nothing more and no less. It makes no mistake. Wiser, perchance, in that moment of inexperienced helplessness than it will be years afterward, when the world and its inmates have been studied in the light of instruction and experience, its love offering is seldom if ever mistakenly presented. By what power is this child love directed? By what subtle influence does it see and know what in after years it may strive in vain to discern?
